

UPDATE NEWS FROM THE MANI'S IN FIJI

Dear Praying Friends,

Greetings to you all in Christ. In times like this we look at the positive side of things. To our born again believers who love the Lord we encourage them by saying yes we are going through tough times and it's going to be harder but we have the Lord on our side to help us. The people around us have lost jobs and it's not easy but your help and the food parcels give them some relief. Thanking you all from the bottom of our hearts for your faithfulness in ministering to us. We appreciate all the encouragement we receive from you. Our prayers are with you all.

Church Ministries

Pray for the faithfulness for our men in helping in the ministry. We thank God the we are able to come together to worship Him freely.

School Ministry

This is our 7th week of school we thank God for being with the students and giving us wisdom each day as we work together. Some parents are out of jobs yet they are continuing to send children to school amidst the financial struggle. All our boarding students are still away since the boarder is closed. Pray with us for our scholarship students as to how to help them and their parents. We have 15 scholarship

students and we ask you to pray for the school and to keep it running we need to make wise decisions. We pray that God will provide for the specific needs like sponsorship for students for the months of Sept. to Dec., monthly bills that needs to be taken care of.

Church Food Bank Ministry

Thank you so very much for your contribution in this ministry. People appreciate the food parcels. It helps them to put at least a meal on the table. When talking to them we find that some of them cannot comprehend the fact that it may take another year or so to have normal lives. Fiji relied heavily on the Tourism industry and suddenly that has fallen. Some people are disturbed mentally. Everyone in Fiji is affected, some harder than others but each one in a different way. We encourage people, parents, friend's even strangers we meet in town or anywhere we go that God is in control and we find peace only in Him even in this trying times.

Building Project and Nehemiah Project.

We continue to build as the Lord provides. The class room needs our urgent attention as we are not able to use it because of the white ants. Some work is done as you can see in the photos. Please keep this need in your prayers.

House for Mj & Doris is another project which I am working on slowly taking time as the Lord provides. The next stage of this is the finishing part. We are currently working on bathrooms, kitchen and finishing walls. Pray for the Lords provision.

Pray for Colin in the village, his wife and him were employed at the Outrigger resort but now have been made redundant. I was very emotional when I visited him and heard his story. There are so many like him who have lost jobs and have nothing to fall back on and most of these people have gone back to working on their farms. Those who were renting houses have left and gone back to live with relatives in villages. It's a sad situation but there is hope.

Michael junior and Doris are working alongside us and that's a blessing. Apart from church and school ministry I have been busy in my vegetable garden and bee keeping etc. We have been eating off our fresh vegetables and sharing with others. It's a blessing and also it does save a bit of money for other important things. MJ and I together with few men from the church also been going fishing and getting fresh mussels from the river. This is fellowship time and also a bit of encouragement from one another. The cheapest outing in Fiji is to head to the beach and that's a blessing.

Once again we thank you all from the bottom of our hearts for all your prayers and support. God bless you all and we are always praying for you all. Stay safe!!!!

Your servant in Christ,

Michael Mani

For The Mani Family.
